**Subject:** Microsoft Settlement

The current settlement made by the DOJ, failed to meet the changes hoped for by myself, and I'm sure many others. A quick settlement was reached, but no real punishment was delivered to the company, and it seemed as if the DOJ quickly gave up. Hopefully a better agreement can be reached in the future with the last states that have kept their claim against mircosoft, and I hope futhermore that this case if ever brought before a judge in the future by the DOJ, I hope they can further persue their goals in the case, and not give up so quickly. Microsoft continues to show practices which prevent competition. They continue to dominate areas of markets without it seems any hope for future competition with the settlement that has been reached. Hopefully something can and will be done about this one day.
